Create an informative display or poster that discusses a future career you would like to pursue and how it relates to your favorite projects in 4-H — for example, food and nutrition could lead to a career as a nutritionist; robotics could lead to career as an engineer; demonstrations could take you on a path to broadcast journalism; or your interest in animal science could have you become a veterinary technician. The possibilities are endless! Include information, such as a description of what a day in that career can look like and the specific skill sets and education needed to pursue your chosen career. You may also include an interview with someone who is already working within that career.
